WE HAVE A GREAT STORY FOR YOU!

40% of container transport on land is empty.
At sea it's 20%. Hundreds of Megatons of CO₂
emissions and €25 Billion in cost are wasted.
This form of global inefficiency has to stop.
Right now!

We at BIA Global Logistics reduce empty
transport in the most significant way. With
a foldable container that saves up to 37%
in costs and CO₂.

Our mission is to help shippers and
forwarders achieve their footprint savings
targets with real sustainable supply chain
innovation.

SEE THE POTENTIAL

SPACE SAVING FOLDABLE CONTAINERS

I AM A SPACE SAVER

Four folded containers take up as much space
as one regular container when stacked. This
means you only need one truck or rail wagon
to return four empty containers. Also on
vessels, on depots and in terminals we save
75% of space. Four folded containers become
one container!

I AM A MONEY SAVER

Less movements over sea and on land
lowers cost considerably. On top,
terminal handling and depot traffic are
reduced. Let's bring major savings to
your operation and make Detention and
Demurrage fees a thing of the past.

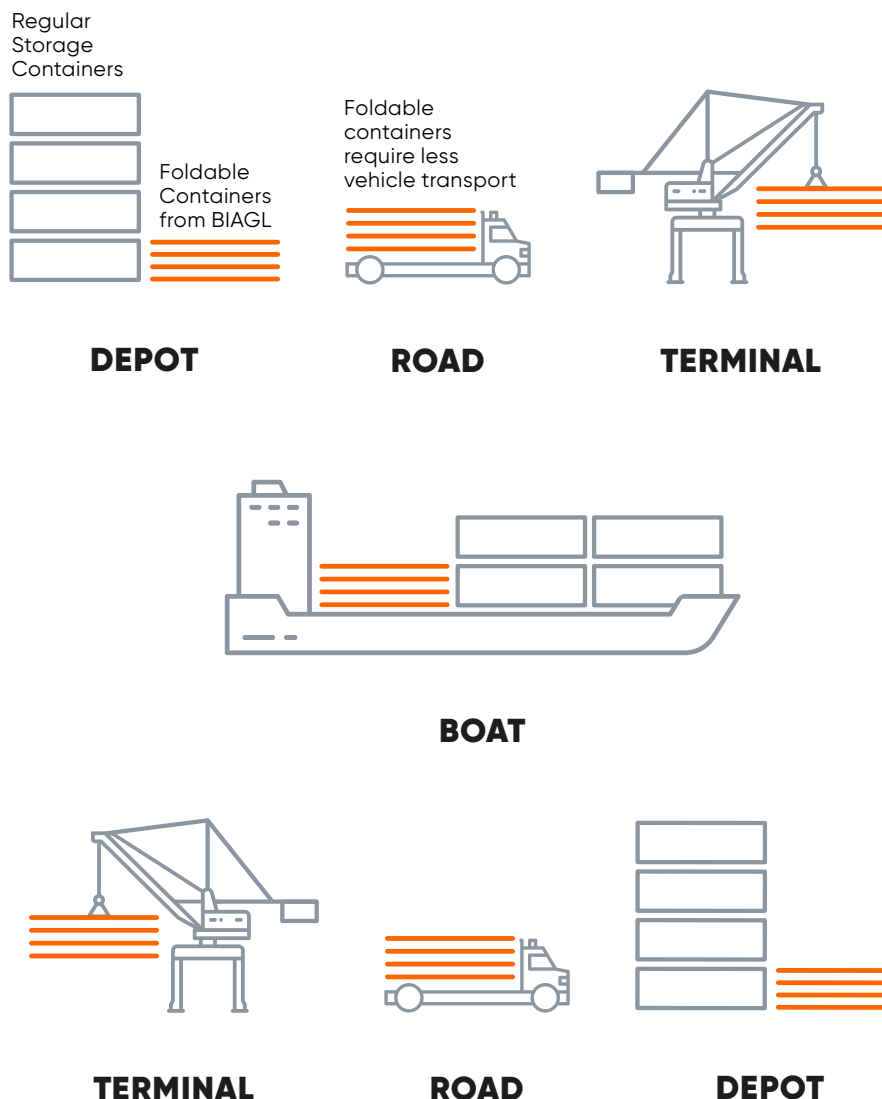

I AM A TIME SAVER

Less volume means more efficient use of
containers on vessels, trucks, trains, docks
and in depots. Our revolutionary space-
saving design results in fewer shipments with
less port and road congestion around the
globe. It's that lean!

I AM A PLANET SAVER

Take action to reduce emissions in the
transport sector NOW!
Meet your climate responsibility
goals by taking advantage of our
innovative solution - FOLDABLE
CONTAINERS!

THIS IS HOW IT WORKS

IMAGINE THE POSSIBILITIES

If a container needs to be transported empty, we fold it in a fast, safe and easy way to a quarter of its volume. It only takes us up to 10 minutes to fold. Four folded containers become one interconnected bundle that is handled like one container.

The shipper will only see an unfolded container which is a standard 40 Hi-Cube container. BIA Global Logistics will arrange the folding and unfolding. In addition BIA Global Logistics handles the complete (SOC) transport from A to B.

PROUD TO BE A PARTNER OF 4 FOLD

BIA Global Logistics is the first to offer Foldable Containers to its customers. We have been booking them as SOC containers for two years and our quality standards meet the standards of all shipping lines, forwarders and shippers around the world. Foldable Containers is a highly efficient and sustainable transport solution. Introduced by BIA Global Logistics to many shippers, we have optimised processes to global industry standards and now we are ready to scale up and

offer the service to more customers. If cost savings and CO2 reductions are on your mind, talk to us today about how Foldable Containers from BIA Global Logistics can assist you in achieving your goals.
